**Item 8.01 Other Events**

On November 14, 2014, certain subsidiaries of Hannon Armstrong Sustainable Infrastructure Capital, Inc. (the “Company”) entered into a Forbearance and Mutual Release Agreement with EnergySource LLC (“EnergySource”) and Hudson Ranch Power II LLC (the “Agreement”) to finalize its previously disclosed recovery and settlement efforts relating to a geothermal project loan made in May 2013. Under the terms of the Agreement, the Company would realize a portion of the proceeds from the sale of land held by EnergySource and its subsidiaries as full satisfaction of the remaining balance of its loan that has been carried on the Company’s books at an estimated net realizable value of \$0.8 million. The Company expects its recovery from the land sale to equal this net balance of \$0.8 million and has agreed to cap its recovery at \$2.0 million. However, there can be no assurance as to the actual timing or ultimate recovery from any land sale or whether any land sale will in fact occur. The estimated net amount reflects the remaining \$11.8 million balance of the \$24 million loan made in May 2013, net of an \$11.0 million loan loss reserve made in December 2013. Also, as previously disclosed, certain of the Company’s executive officers and directors own an indirect minority interest in EnergySource following the distribution of the ownership interest of the Company’s predecessor prior to the Company’s initial public offering.

---
